Method of sale

Reflecting your objectives and the market we will give clear advice whether to sell by private treaty, tender or public auction. We understand that for some vendors a confidential off market sale is preferred.

Market sector appeal

By understanding the location, size and soil types of your holding we will identify the most appropriate market sectors such as commercial farming, equestrian, country estate, investment or development.

Lotting

Sometimes dividing into lots can significantly increase market appeal and returns. We will consider the potential to divide your property and recommend the optimum solution given your objectives.

Development potential

Working with our in house planning consultants we can seek planning permission or preserve future value by imposing a development clawback or restrictive covenants.

Once a sale has been agreed we can offer a full service to ensure a smooth handover the new owner.

Negotiate the ingoing value of growing crops and stocks on completion.

Transferring contracts and licences such as Single Payment Entitlements, woodland grants, Sugar Beet Contract, Irrigation Rights and Environmental Schemes.

Providing a full service traditional dispersal sale of farm machinery by auction either on site or at an appropriate sale ground.

If you are considering a sale please call us we would like to help.
