

Machinery Auction Services

realise optimum value from
your plant and machinery sales

BUSINESS

What Do We Offer?

- Complete farm dispersal sales following retirement or sale
- Rationalisation sale following change of policy, merger or acquisition
- Collective Machinery Auctions on behalf of a number of vendors

JHWalter's auction team will initially visit your premises free of charge to access your auction requirements and then supply you with a sale proposition. Once appointed the team will compile a comprehensive list of your equipment and from this a colour catalogue is produced and national and local advertisements placed. The team will advise on sale layout and assist wherever necessary running up to sale day.

On the day itself our team will be in place to firstly register buyers and handle all sale enquiries. Once the sale is underway our experienced auctioneers will sell your equipment for the highest price possible and then the sales office will quickly and efficiently process each transaction ensuring that payment is received before allowing equipment to be removed from the sale ground. Post sale the client will receive details of each lot sold with payment following as soon as funds clear to our client account.

JHWalter's auction service provides an effective and efficient means of achieving excellent returns from the sale of plant and machinery. Based from our offices in Lincoln we are well placed to serve clients in Lincolnshire and Nottinghamshire.

Testimonial

"I was very impressed with the service that JH Walter provided, particularly leading up to and on sale day itself. They liaised with any prospective buyers and had ample staff available to answer or deal with any queries alleviating what would have been a very hectic and stressful time without them".
