Property Professionalism

Regulated by the RICS, the JHWalter team of Registered Valuers are proud of a professional approach to appraisal and valuation.

Our valuers gather technical information about the property/asset, data about its environment and market knowledge relating to similar transactions. With this accumulated information, calculations of value are supported by sound judgement reflecting market attitudes towards the asset. With a good track record, JHWalter is supported by substantial professional indemnity insurance giving a further foundation of reassurance that our valuations are dependable.

A valuation from JHWalter will aim to provide all the necessary advice for the client. In most cases, clients need more advice than just the “end figure”. Our reports are designed to give a clear indication of our recommendations in respect of the purpose for which the valuation is commissioned.

Expert Advice for Litigation

An Expert Witness should be just that - an experienced, knowledgeable person able to give independent opinion on property matters at the request of the client for the benefit of the Court, Tribunal or Arbitrator.

At JHWalter, we have a team of Chartered Surveyors offering independent advice as Expert Witnesses in commercial, residential and agricultural property. Our surveyors advise on retrospective valuations, matrimonial cases, the suitability of valuation methods, standards of conduct in sales, letting and surveys as well as the position of boundaries and rights of way. We have surveyors acting as Expert Witnesses in arbitration and court submissions for rent review and lease renewal. We can support our opinions through robust methodology and practical experience.

Each Expert Witness is proficient in taking instructions, interpreting the evidence and preparing opinion on behalf of claimants and defendants as well as acting as Single Joint Expert. At all times, our experts are mindful of their duty to the Court where they may be cross examined on their views.

Initial Expert Witness reports are prepared to be unbiased and to help the parties reach a just and equitable settlement without the additional costs of court, tribunal or arbitration. Our reports are clear decisive and produced in a timely fashion.

Civil Procedure Rules (CPR) have developed Court proceedings it is the role of the Expert to narrow the issues, ensure professional opinion is robustly held and keep litigation proportionate. We work with instructing solicitors to consider all possible issues and advise on the likely outcome of the client's case.

Agricultural Valuation

Agricultural and rural property valuations not only include farm valuations, small holdings and fields but also major landed estates, diversification projects, horticultural property, glasshouses, equestrian business property and rural homes.

Stocktaking

Specialist advice and preparation of Annual Stocktaking Valuations for all types of farming systems (including arable and all livestock systems, market gardens and contract farmed land) we advise all sizes of agricultural businesses with valuations from £5,000 to £1 million and more.

Geographical Coverage

Our service extends to valuation of agricultural property over a wide geographical area in Lincolnshire, Nottinghamshire, South and East Yorkshire, Derbyshire, Leicestershire, Rutland, Cambridgeshire, Northamptonshire and Warwickshire.

Residential Valuation

Our valuers apply the same rigorous standards to residential property from small terraced houses requiring renovation through family homes to manor houses and homes with equestrian facilities. Recent valuations have included residential investments, student housing, portfolios and residential development opportunities.

Geographical Coverage

Our geographical coverage for commercial property valuations is Lincolnshire, Nottinghamshire, North Lincolnshire, North East Lincolnshire, Leicestershire, Rutland and Northern Cambridgeshire.
